

Teia

Teia is 15 years old. Here's what she would like you to know about her

Things that I enjoy:

Animals, music and singing, cooking and baking, shopping, video games, TV and movies and staying up late.

Things I don't enjoy:

Secrets, change, bully's, hearing "no" without a reason, being alone for long periods of time and going to bed early.

What I want from a family

A mom and dad who are patient, a family who will allow contact with my birth family, to live in a family that is active, and to have my own room.

What we want families to know about her

I am upbeat and fun. I like to cook. I love spending time with friends and going shopping and out to eat.

What we are seeking in family for Teia

A Single or two parent family who can provide consistent structure, a family with patience who are willing to help Teia recognize her true potential, parents who will support her in continual contact with her birth family, parents with experience in trauma-related behaviors, parents who are willing to attend ongoing therapy with her.
